EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: in the Specification, --
10/828425— has been inserted after the phrase "Application No." on

Page 3, line 5

Page 7, line 20 and

Page 11, line 15.

The following is an examiner's statement of reasons for allowance: the claims in this application have been allowed because the prior art, alone or in combination, does not disclose a milking claw for a dairy animal having an udder having at least one teat, said claw having a top having at least one inlet directing incoming milk flow into said claw respectively from said at least one teat, said claw having a bottom having an outlet subject to vacuum for drawing milk therefrom, said outlet comprising a tubular member extending laterally from said claw bottom and having a flow passage of a first vertical height, a nozzle having an opening passing milk therethrough from said claw bottom to said flow passage, said nozzle opening having a second vertical height less than said first vertical height, such that milk level in said claw bottom need only rise to the level of the second lower vertical height of said nozzle opening rather than to the

Art Unit: 3644

level of the first higher vertical height of said flow passage of said outlet tubular member, to provide a pressure differential between the vacuum in said outlet and the vacuum in said claw, whereby to draw milk from said claw in smaller more frequent slugs as compared to higher volume less frequent slugs while otherwise waiting for milk level in said claw bottom to rise to the level of said first vertical height.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yvonne R. Abbott whose telephone number is (703)308-2866. The examiner can normally be reached on Mon-Thurs 9:30am-6:00pm.
